- **DIXIE CHOPPER LP 3000**
Winner of the 2008 Central Indiana Clean Cities Alliance (CICCA) Stakeholder Achievement Award for outstanding accomplishment in the development of the first original engine manufactured (OEM) propane-powered lawnmower. The Dixie Chopper utilizes "Gaseous Alternative Power" or GAP for air-cooled engines for use in the commercial and industrial markets. With this system, the Dixie Chopper cuts down on over 50% of ozone causing emissions as compared to a regular gasoline-powered mower. The GAP system also eliminates any evaporative emissions and is listed as "CARB Approved".

Specifications:

PROPANE S E R I E S	LP3000-60	LP3000-72
Engine Manufacturer	Generac	Generac
Engine Displacement	990cc	990cc
Suspension Seat	Deluxe	Deluxe

- **eXmark Lazer Z X-Series** - 60" commercial propane mowers

According to a recent study by the Propane Education & Research Council (PERC), the eXmark Lazer Z X-Series utilizes a propane-powered engine to reduce this commercial mower's CO2 emissions by 20-25%. The cleaner burning propane used in the eXmark Lazer Z X-Series also results in reduced carbon deposits, reduced engine maintenance costs and a longer engine life.

Specifications:

Size – 60"
Deck – UltraCut Series 6
Weight – 1360 lbs
Length – 83.1"
Height – 70.5"
Defl. Down - 72.8"
Defl. Up – 62.5"
